

AJITH R

React Native Developer

+91 6385886750 | ajithofficial2607@gmail.com | linkedin.com/in/ajith25484 | Chennai, Tamil Nadu

PROFESSIONAL SUMMARY

React Native Developer with 1+ year of experience building and maintaining production HRMS mobile applications, specializing in Attendance, Leave Management, and Reimbursement modules. Proven track record designing intuitive calendar-based UIs for leave application, attendance regularization, and status tracking. Proficient in React Native, JavaScript, Redux, REST API integration, and SQL/stored procedures. Experienced in leave clubbing configuration, face-recognition attendance capture, punch-in/punch-out reporting, and manager approval workflows. Adept at leveraging AI-assisted development tools (Claude, ChatGPT, Antigravity AI) to accelerate feature delivery and consistently meet project timelines.

TECHNICAL SKILLS

Mobile & Frontend: React Native, React JS, Redux, JavaScript, TypeScript (basics), HTML5, CSS3

Backend: Python(basics), Django (basics), REST API Integration

Database: SQL, Stored Procedures

Tools & Version Control: Git, GitHub, Postman, REST Assured

Core Modules: Attendance Management, Leave Management, Leave Clubbing, Attendance Regularization, Reimbursement/Expense Claims, Punch-In/Punch-Out Tracking, Manager Approval Workflows

AI-Assisted Development: Claude, ChatGPT, Antigravity AI

PROFESSIONAL EXPERIENCE

React Native Developer

May 2025 – Present

Integrum Technologies Private Limited, Chennai

- Developed and maintained core modules of a live HRMS mobile application — Attendance, Leave Management, and Reimbursement — using React Native and Redux, leveraging AI-assisted tools (Claude, ChatGPT, Antigravity AI) to accelerate delivery and consistently meet release timelines.
- Built a calendar-based Attendance module with color-coded daily status indicators (Present, Absent, Leave, OD, WFH) and enabled employees to submit attendance regularization requests directly from the calendar.
- Designed a calendar-driven Leave module featuring an intuitive interface for leave application, status tracking, and balance visibility, including a configurable leave clubbing feature to combine multiple leave types in a single request.
- Implemented Geo fence tracking -based punch-in/punch-out attendance capture with automated reporting, improving accuracy.
- Built manager approval workflows for Leave and Reimbursement requests, including team-level attendance and leave reporting.
- Integrated REST APIs for the Reimbursement module to support expense submission and real-time status tracking.
- Authored SQL queries and stored procedures to support application data requirements and optimize backend performance.
- Delivered a store-opening checklist mobile application for a retail client, integrating React Native with .NET and SQL Server backend APIs.
- Used Git for version control and Postman/REST Assured for API testing throughout the development lifecycle.

Sales Supervisor

Oct 2022 – Dec 2024

Puma Pvt Ltd, Chennai

- Supervised a team of sales associates, ensuring efficient store operations and high customer service standards.
- Used Microsoft Excel to track inventory, compile sales reports, and manage schedules.

REAL-TIME PROJECTS

Attendance Module – HRMS Mobile Application

- Designed an attractive, calendar-based attendance UI showing daily status (Present, Absent, Leave, OD, WFH) with color-coded indicators.
- Enabled employees to apply for attendance regularization directly through the calendar interface.
- Implemented punch-in/punch-out tracking with Geo fencing configuration and punch-in reports for managers.

Leave Management Module – HRMS Mobile Application

- Built a smooth, visually appealing UI for applying leave, viewing leave history, and tracking approval status.
- Developed a configurable leave clubbing feature enabling employees to combine multiple leave types in a single request, driven by backend business rules.
- Integrated manager approval workflows for leave requests with real-time status updates.

EDUCATION

Bachelor of Computer Science

MRC Arts and Science College

Mar 2019 – Jul 2022
